**2 BUTLER'S FIZZWIZZ MOLL FLANDERS (13c11).** I judged this Seal Tabby girl recently at the North West show & she is maturing quite nicely with strong bone & substance but needing a little more weight. Nice strong legs showing bars. Good head for type with width to cheeks & quite a firm chin. Medium length to nose & correct dip in profile. Nicely placed ears of medium size, showing thumb marks. Eyes of good shape, vivid blue to centre with paler outer rim & framed by spectacles. Nice 'M' marking to forehead & clear spots to whisker pads with full ruff to frame her face. Coat of quite good length, pale beige & of silky texture. Nicely balanced tail, lacking rings but it was rather untidy & needed more preparation. Matching gloves with right to maximum at stopper pad & good gauntlets. A nice cute kitten who was a real sweetie;

**1 BUTLER'S FIZZWIZZ MOLL FLANDERS,** 6.5.98, Seal Tabby Point Birman. A worthy winner in this very high quality class. Her head can't be faulted & the mask with 'M', spotty whisker pads & so on, showing well. Super eye colour. Good points colour, with thumb prints on ears, pale definite leg bars & rings just showing on tail. Good body & bone, a strong kitten. Soft coat a little on the short side, but thick & profuse & clear pale beige. Very neat gloves & nice matching gauntlets. I saw afterwards that she had the First & BOB. Very good show preparation made the best of her assets. A real sweetie;

**3 BUTLER'S FIZZWIZZ MOLL FLANDERS (13c11).** A lovely 8 month old Seal Tabby girl who I have judged before. She had good weight & boning on sturdy, well barred legs. Nice type to her head with good width to her cheeks & a firm chin. Well placed ears of good size, with clear thumb markings. Nose of medium length with dip in profile. Eyes of clear vivid blue which are of good shape & nicely framed by spectacles. Nice 'M' marking to her forehead & clear spots to the whisker pads with a nice ruff coming to frame her face. Clear beige coat of good length but a little harsh in texture. Balanced bushy tail where rings are developing. Gloves matching but unfortunately the right had a spot of white at the stopper pad today & this was why I could not place her higher! Good gauntlets. A very pretty girl with a lovely temperament who was very nicely prepared.
